- **We recommend that you open and save a blank copy of the CCE application to your own computer, and then work from that as you fill out and complete the application. If you work on the application on-line, changes may not be saved.**
- The application form automatically calculates all points at the end.
- Type all information into the shaded boxes. It will expand as you type.
- **Do not** press the ENTER key after typing your information into the shaded boxes. You must press the **TAB** key to continue.
- Some parts of this application require a numerical answer. Alpha characters will not be accepted in those sections.
- To change your answers, press the arrow key (in the direction that you wish to move) then press the backspace key to delete the answer. You can also click on the edit function in your toolbar, and then click on “Undo Typing” to delete your answer.

- No formal cover letter for your application is required. However, if you refer to a required document by a different name (for instance, if you call your business plan by another name), or if more detailed instructions on how to interpret or understand your application package would be helpful, please include a memorandum or other short set of instructions to assist ACCE staff and the CCE Commission in understanding your application. The title of this document should begin with your last name.
